Eye/face protection	Suitable eye protection: Tightly sealed safety glasses (DIN EN 166).
Hand protection	<p>In case of prolonged or frequently repeated skin contact: Wear suitable gloves. Pull-over gloves of rubber (DIN EN 374).</p> <p>Suitable material: FKM (fluororubber), (0,4 mm). Before using check leak tightness / impermeability. In the case of wanting to use the gloves again, clean them before taking off and air them well.</p> <p>For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.</p>
Skin protection	Protective clothing. Minimum standard for preventive measures while handling with working materials are specified in the TRGS 500.
Protective and hygiene measures	Always close containers tightly after the removal of product. When using do not eat, drink, smoke, sniff. Wash hands before breaks and after work.
Respiratory protection	<p>With correct and proper use, and under normal conditions, breathing protection is not required. Respiratory protection necessary at: aerosol or mist generation.</p> <p>Suitable respiratory protective equipment: Typ: Combination filtering device (EN 14387) - Type: AP-2/P-3 The filter class must be suitable for the maximum contaminant concentration (gas/vapour/aerosol/particulates) that may arise when handling the product. If the concentration is exceeded, self-contained breathing apparatus must be used. Observe the wear time limits according GefStoffV in combination with the rules for using respiratory protection apparatus (BGR 190).</p>
Environmental exposure controls	This material and its container must be disposed of in a safe way.
